

# Security Supply Chain Compliance Checklist

- ☐ Do all Security Officers assigned to your location have a valid **SIA Licence**? [Find out here >>>](#)
- ☐ Are they an **Approved Contractor** with the **Security Industry Authority (SIA)**? [Find out here >>>](#)
- ☐ Does your security contractor comply with the relevant British Standards – this can be evidenced through an accrediting body such as **NSI, SSAIB**, etc.?
- ☐ Have you checked that the security officers employed by your contractor are **employed correctly**. They should not be self-employed or paid cash in hand?
- ☐ Have all Security Officers working at your site been vetted in accordance with **BS7858**?
- ☐ Have you been to see where your security company operates from and **how your keys and documentation is secured and protected**?
- ☐ How does your contractor verify and monitor **SIA licence validity** for staff working on your site?
- ☐ Have you checked that the **insurances** held are correct for the security industry and NOT just Public and Employers Liability?
- ☐ Have you seen **Method Statements/Assignment Instructions** and **Risk Assessments** from your security contractor?
- ☐ Does your Security Contractor operate their own 24-hour Control Centre? **Have you seen this?**
